

Notes:

- This represents the current FastL2 E-Line (ie point-to-point) Ethernet circuits.
- All equipment is capable of E-LAN (ie multipoint) Ethernet clouds but these are not currently in service with any customers.
- FastL2 PE (Provider Edge) Appliances are installed on Customer Sites.
- FastL2 Hubs are currently installed in Hosting/DataCentre facilities or are Co-Lo in Tier 2/3 Telco facilities with Telco equipment.
- Syslog and Configuration Servers are currently installed in Hosting/DataCentre facilities.
